10-09-2018

First, Kellen showed us the basic app design with an animation face (bunny), with the bug report, sleep function, and image swapping.

Then we had compiled/run Yohan's code that we changed CMakeList, openCV 3.0.0, include directory to be our own.

Then we discussed about Ted talk line:
"Imagine the world where every child can develop through play."

Update the timeline.

10-11-2018

We dropped off the phone with basic app so Gavin could use it for the next day's presentation.

Download OpenCV 3.0.0 and NDK 17, install NDK, SDK to the right version.

App developed/debug.
